

Sustainable Travel International

CARBON NEUTRAL

Certificate

Sustainable Travel International, the United States non-profit organization
for climate protection, certifies that

Go Off the Grid

has offset 8.0043 metric tons of carbon dioxide (CO₂) emissions resulting from
Operations for Run Off-the-Grid.

8.0043 metric tons is offset with ClimateCare "Verified Emission Reductions" (VER); market-based commodities representing one metric ton of carbon dioxide equivalent (CO₂e) calculated using Global Warming Potentials and developed in accordance with procedures, criteria and methodologies of the Clean Development Mechanism (CDM) under the Kyoto Protocol or other international standards (such as the Gold Standard), with respect to their stipulations for greenhouse gas emissions reductions to be real, for the projects to not have happened without the investment that carbon credits provide, for the production of project-related social, economic and environmental benefits as well as emissions reductions.
